Click the "Download" button and a file is downloaded to your computer (if you have an account on our site you will be prompted to log in). Warming to a T? NASA's Newest Hypothesis for Climate Change - triplesec ====== sliverstorm I'm only at the top of the article, but the image at the top seems to simply be a line graph of the average temperature of the moon vs time. What is the point of it? ...unless the premise of the article is that the moon has been warming. Q: conditional expected values I have a question about expected value $E[X | Y > 0] = 0$ since X and Y are independent. I wanted to calculate $E[X | Y > 0] + E[X | Y 0) $$ then, $$ E[X | Y] = E[X]\cdot P(Y > 0) $$ Q: Where would I put a log program? I have just started out with C++ and I wanted to make a little log program. But it did not work, so I would like to know where to put the code. A: Wherever you need it. If you're using a IDE, put it in a separate file. If you're using a build tool, have your build script put it wherever it needs to go. If you're using a pre-build script, have it do whatever it's supposed to do, then run your tests on it. Don't worry about where things are put first. Just get started coding, and go make other things as you go. As for the project,
